
Tip of the Week - February 6

Posted by michelle.house - 2008/02/06 10:58

With children I am now a lot more conscious about the chemicals that I use in the house for cleaning. I have a couple of boxes of bicarb in my cleaning cupboard and use it for cleaning practically everything! My favourite use is as an all purpose cleaner. A sprinkle of bicarb and a squirt of vinegar, wait for the fizz and then clean as normal! Much cheaper than spray and wipe. About \$5 a bottle versus around \$1.50 for a box of bicarb and \$2.50 for some home brand vinegar - and it will last much, much longer!
