I was just wondering if anyone out there knows of any stores within Brisbane that i could actually look at Wedding Favor Tins? There is enough places online to purchase them, but no actual stores to view them? Help...:(

you could also try looking on ebay... although you probably wouldn't be able to see them first. You never know, someone might be in Brisbane. Ebay is a great way to save money...!

I think personalized wedding favors are a popular way to show your gratitude to your guests. Wedding favors monogrammed with the bride and groom's initials or the wedding date will be a great reminder of the wedding. If you are looking for useful and practical personalized wedding favors, then Buy Wedding Favors Online can help you.
