
Tip of the Week - March 3 2008

Posted by michelle.house - 2008/03/03 20:42

At the end of every shop do what I call a trolley audit. I saved myself around \$15 today by doing a review of what I really needed. I didn't really need the pancake mix - saved \$1.96, I didn't really need the extra packet of cereal - saved around \$6.00, I didn't really need the packet rice (I can make this at home!) - saved \$3.96 a packet! If I can save \$15 and the end of each shop, that's a whopping \$780 a year!
