Hello!

Well as the quote above says, accept it and improve on the worst. Our members cover such a broad spectrum, young single mums through to retirees and I thank you for your emails over the last few weeks about the "global crisis".

All I can offer you is my own opinions about my own experiences and information and suggest that you change your mind about what's happening. "We are what we think!"

It's re-evaluation time. Take the time to sit down and get your budget on paper, review your expenses and review your income. In times like these, you need to know exactly where you stand and review as often as you can.

I have been coaching people through this process and if you are interested, please send me an email michelle@secretbudget.net

I recommend you print out this newsletter, cut out the quote and stick it on your mirror. Confidence is what you need and also what the markets need. Knowing your position will give you this!

Thank you for your emails of praise and encouragement over the last few weeks. It's great to know that my vision of providing the freedom to live an enriched life is helping you all!
